

Job Opening

Experienced Production Welder/Fabricator

RENNtech is adding another position to their exhaust, fabricating and special projects department at their Stuart, Florida headquarters.

We are looking for an experienced welder/fabricator to work on production exhaust projects.

Production/Jig experience is preferred, but not mandatory.

Must be proficient with TIG welding and basic metal fabrication.

The ability to work in a team and on multiple projects at the same time are also of high importance. If you feel your skillset matches our criteria, please send us your Resume.

info@renntechmercedes.com, Subject 'Job Opening – Fabricator'.

Skills and Qualifications

- Multiple years of experience in the Automotive Industry
- Knowledge and skills in the use of equipment and techniques in TIG welding on aluminum and steel
- Ability to follow verbal, written instructions and printed drawings
- A working knowledge of fabrication tools to include, but not limited to, Band Saw, Sheer, Brake, Grinder, etc.

Work Tasks:

- Production of exhaust products
- Custom Work on Customer Cars and Project vehicles
- Exhaust prototype/product development
- Must be able to work overtime as needed

The position will be available at the RENNTech HQ, 7825 SW Ellipse Way, Stuart, FL 34997. Applications need to be sent to info@renntechmercedes.com with the subject line 'Job Opening – Fabricator'.

Thank you.
